25X1 4. [] LLM) Delivered letter to Miss Marcia J.
25X1 MacNaughton, professional staff member of Senate Subcommittee on
25X1 Constitutional Rights, in reply to Senator Ervin's inquiry on behalf of
25X1 [] former employee of the Agency retired for disability.
25X1 Miss MacNaughton indicated they were primarily interested in whether
25X1 the Agency had followed proper internal procedures. Our letter satisfied
25X1 this point. In response to Miss MacNaughton's query for any information
25X1 she may use to quell [] anxiety concerning Agency action, she
25X1 was told that in the only inquiry received from a potential employer, the
25X1 Agency had replied that [] integrity, character, and loyalty
25X1 were beyond question and that she had rendered a professionally competent
25X1 performance. Miss MacNaughton welcomed this information and said she
25X1 would contact us if any further questions develop.

25X1 5. [] - JGO) Met with Howard P. Willens, Executive
25X1 Assistant, Criminal Division, Department of Justice, and Mr. Herbert
25X1 S. Miller, of the staff of the Criminal Division, concerning present
25X1 considerations by the Department of Legislation concerning attempts on
25X1 the life of the President, Vice President, and other Federal officials.
25X1 Mr. Willens very cordially offered any assistance his office can provide
25X1 in bringing the question of inclusion of the DCI among others within the
25X1 coverage of the proposed legislation and suggested, as a possible course
25X1 of action, submission of our views to the Bureau of the Budget so that
25X1 they would be available for consideration by the Bureau and by the
25X1 Commission in submitting legislation proposals for inclusion in the
25X1 President's legislative program.

25X1 6. [] - JGO) Discussed with Mr. Wilfred Rommel,
25X1 Bureau of the Budget, the present request through the Bureau of the
25X1 Budget from the Commission appointment by the President for comment
25X1 on proposed legislation concerning attempts on the life of the President,
25X1 Vice President, and others. Mr. Rommel indicated that it had not
25X1 occurred to them to request comments from the Agency and suggested
25X1 that we reference today's conversations and submit our view in normal
25X1 fashion to the Bureau.
